

# Installation of new sewer line during the White House renovation

## Description

A massive new 36" concrete sewer line is laid through the new concrete foundation wall. While one workman prepares to send excavated dirt out on a cart through one section of the sewer line, another workman prepares a new section for installation into the excavated area by means of hydraulic jacks, July 6, 1950.

## Date(s)

July 6, 1950
