

**Description**

General external view of power plant at Fouhsin, Manchuria. The plant, with 160,000 KW capacity, served the Fushin coal mines. Here the entire capacity was removed, bringing coal mining to a stop and causing the mines to flood. Photograph taken during the U.S. Reparations Mission. Edwin Pauley was the U.S. Ambassador on the Allied Reparations Committee from 1945-47 (the committee that assessed the reparations the Axis powers could afford to pay the victors).

**Date(s)**

ca.

June 1946

**Accession Number** 2009-683
