

Such varied Landscapes as these may be seen along the Highways of Jackson County

DRIVE SAFELY

1. Keep your car under control at all times. Drive in such a manner and at such a speed that the car can be stopped in the distance that is seen to be clear ahead.
2. Be sure brakes are in good working order.
3. See that both headlights and tail-light are working; headlights adjusted so they illuminate the road but do not blind approaching driver; use dimmers when meeting other cars.
4. Keep on the right side of roadway; don't straddle or hug the center line.
5. Don't pass another car until you can see that
